9A's Scorer in PT3 2014

“No secret behind my success”

Currently I'm in Form 4 Science and the assistant Head Prefect and have not regretted for choosing to study in WMSS. Last year was a very successful year for me because I obtained full 9 A's in PT3 and also received a Gold Award for Science Level 3 in the Malaysia ASEAN Science & Mathematics Olympiads (MASMO) examination.

Actually, there is no secret in excelling in my studies and being a top scorer in my class. It is all about hard work and determination which include daily revision after school, doing extra exercises during spare time and one-to-one tuition on weekends.

I am very thankful for my teachers because they play an important role in teaching and helping me succeed. Even to the point of giving extra classes outside school hours.

I'm grateful to my friends because during our free time we would form a study group to discuss difficult questions and share information to improve our studies.

I also have my mother to thank as she is always there for me. She never fails to give me hope and inspiration. Despite being a single mother she provides me with all the necessities I need.

None of this would be possible without the blessings from God.
